

Tudela

Guide to Public Services

The aim of this guide is to help all the residents of Tudela and an attempt to use all means at our disposal so that everyone who visits the area is able to know the resources and services of the town. For this reason we have made this document available to everybody.

It is published in various languages to allow non-Spanish speakers access. I hope it will be a useful and much consulted service.

Luis Casado Oliver
Mayor of Tudela

Public Office, Lourdes (SAC)

Index

Services of interest:

Municipal Complex, Ribotas

Tudela Town Hall's municipal sports facilities are open to everyone on a voluntary basis, regardless of their social or physical condition. It is an important social and public resource, which contributes to a more complete development of the person, improving their quality of life, individual well-being and social coexistence.

The sports service is managed by a Centre for Sports Management, situated in the Ribotas 948 821032 facility.

Huertas Mayores Public School

Education is a right and a necessary obligation for the younger ones in our society. Schooling in Spain is compulsory up to the age of 16. At that age, students can continue to study according to their interests. The incorporation of children into the school system from infancy is fundamental, not only from an academic and learning point of view, but also as part of their integration in society and incorporation into the rest of the system of services that they will need for their future. At each stage (from 0-3 Education, Infants, Primary and until finishing in Secondary etc) they follow a learning and enabling process that will give them the best tools for their development in society.
